Languages: HTML, CSS, JavaScript, Typescript, Python

Framework and Libraries: React.js, Next.js, Express.js, Node.js, Chart.js, Tailwind CSS, Sass, Framer Motion, Zustand, Redux, React Query, Vitest

Databases and APIs: RESTful API, GraphQL, MySQL, MongoDB, Postman

Tools: NPM, Yarn, Git, Figma, Contentful

WORK EXPERIENCE

Dreamers' Mothers in Action – Woodbridge, VA | Front End Developer | May 2024 to May 2025

- Led the team in collaborating with Founder and IT Director to identify project requirements and proposed implementing Sender, Zapier, Eventbrite, and Google Calendar integrations. These solutions streamlined business workflow, automating outreach, and improving event management
- Integrated Eventbrite and Google Calendar into Wix for event listing and simplified event registration
- Automated newsletter distribution using Sender and Zapier, increasing outreach efficiency by 15%
- Redesigned 12-page website serving over 1,000 community members, improving content clarity and UX resulting in a 200% increase in site sessions over three months

PROJECTS

Expense Tracker – [Demo](#) | [GitHub](#) |

- Developed a full stack expense tracker with CRUD RESTful API, responsive UI listing view options, Clerk based authentication/authorization, and Chart.js powered expense dashboard for visual insights
- Built a searchable modal filter with multi-select checkboxes to query and display MongoDB data
- Improved personal tax preparation by 13% by reducing the need to cross check multiple credit card and bank statements through PDF export capability and logging expense in a central platform
- Tech Stack: HTML, Tailwind CSS, React.js, Next.js, RESTful API, MongoDB, Clerk, Chart.js, React-PDF

Fictional Restaurant – [Demo](#) | [GitHub](#) |

- Built restaurant website to practice UI design fundamentals and interactive features including filtering, carousel, form, data persistence using browser local storage, CSS animations, and CSS Illustrations
- Tech Stack: HTML, Sass, JavaScript, jQuery, JSON, Ajax, XMLHttpRequests

ACHIEVEMENTS

- Received a recognition award from Dreamers' Mother in Action for leading a website redesign, automating event management workflows, which reduced manual promotion, staffing, and attendee tracking, cutting time and operational costs and improving community satisfaction
